

TREX FENCING INSTALLATION SERVICES

TREX FENCING AVAILABLE THROUGH LOWE'S PSE INSTALLATION PROGRAM

FDS Distributors partners with the Lowe's PSE (Project Specialist, Exterior) program to provide installation services in your area. Your local Lowe's representative will meet with you to measure your property and understand your needs in preparation for a Trex Fencing estimate. Once you have your price quote and decide to move forward, the Lowe's representative will handle the contract, materials ordering, and the installation process. FDS Distributors supplies Lowe's and will take care of shipping the product to the store.

Please contact your local store's Lowe's installation department to speak with the Installation Coordinator or the PSE (dial the store number and press "3" then "4"). They will be able to schedule the onsite bid.

Please provide this sheet to the Lowe's associate if they have any questions or if you have any concerns. This will provide them with our vendor contact information. We are to help if you run into any troubles.

Vendor Name: FDS Distributors Inc

Vendor No.: 93600

SOS No.: 153539
