**TREX® SECLUSIONS® PAINTING TECHNICAL BULLETIN:**

**Can Trex Seclusions Fencing be painted?**

Yes, you can paint or stain Trex Seclusions Fencing to achieve a custom color, but it is not necessary for protection. Use paints and stains that adhere well to exterior wood. Fencing that has been faded (approximately 12 – 16 weeks for new product) can be painted or stained at any time, even years after it has been installed. Ensure fencing is cleaned properly (see Care and Cleaning Recommendations) and use a paint or stain that is designed for exterior weather resistant applications.

**What types of paints and stains can I use?**

Most exterior construction paints or stains that you would apply to wood can be applied to Trex Seclusions Fencing.

**What about cleaning my painted or stained Trex Seclusions Fencing?**

Consult your paint or stain manufacturer's directions before cleaning.

Regards,
