black metal frame)

THE CLASSIC LINES OF **SECLUSIONS**.  
THE CONTEMPORARY DESIGN OF **HORIZONS**.

***Endless applications:*** HOA perimeter fencing | Backyard fencing | Pool enclosures | Multi-family patio/deck screens | Trash & utility enclosures

## PRIVACY REDEFINED

Who says privacy fences need to look utilitarian? With Trex, form and function meet for a beautiful design that also protects your backyard spaces.

# WHY *choose* TREX FENCING?

## STYLE

- » 3 rich, natural colors
- » Neighbor-friendly, board-on-board design
- » Same look both sides
- » Adaptable for slopes
- » Heights up to 12 feet tall
- » Customizable for various applications

## STRENGTH

- » 25-year residential / 10-year commercial warranties
- » Won't rot, split, splinter, or get damaged by insects
- » Withstands hurricane-force winds

## SERENITY

- » Completely private interlocking pickets
- » Never needs painting or staining
- » Installs quickly and easily

**ALWAYS GREEN**

# Trex Fence *Colors*

Color Your World *with* Rich, Natural Hues *that* Complement *any* Landscape

# Trex Fence *Colors*

- Fades from dark tan to light tan.
- Popular on properties with earth tones.
- Resembles a natural stain on a wood fence.

- Fades from taupe-grey to light grey.
- Popular in combination with white or black accents.
- Complements brick or masonry, and modern urban design.

- Fades very little from chocolate brown to dark brown.
- Popular as a contrast to lighter colors.
- Performs better than other dark colored materials.

**The weathering process.** As sunlight interacts with plastic, it will cause the surface to lighten. Trex compensates for this natural phenomenon by over-pigmenting its material during production. This allows the composite to weather to a lighter value over a short period of time. This is a limited transition. Trex will retain color throughout its life.

# Trex Fencing *Advantages*

## COMPARED TO WOOD

No painting or staining; resists insect damage and will not rot, warp, or splinter; more durable (longer life expectancy).

## COMPARED TO VINYL

Non-reflective surface, more durable (longer life), richer colors, components are 2-4x thicker, eco-friendly.

## COMPARED TO MASONRY

More natural-looking and less expensive, less impact on landscaping during installation

## COMPARED TO OTHER COMPOSITES

Strongest material, internal wood post supports not required, neighbor-friendly design, proven brand

*The* TREX UPGRADE

**BEFORE  
& AFTER**

*What a  
Difference!*

## The *Universal* TREX FENCE POST

Upgrade wood or metal posts to versatile Trex composite posts. Trex offers higher durability, longevity, and a distinct look to add interest to traditional fencing.

# *Get* CREATIVE *with* TREX FENCING

Adapt Trex components or combine them with other materials to create your own amazing designs.
